

Welcome!

Hello!

Thank you for choosing Pazona MD to help you achieve your weight loss goals. We are excited to partner with you! Our goal is to deliver an exceptional experience as you embark on your weight loss journey.

Your healthcare is a partnership. We believe it's important for you to understand as much information as possible related to your care. To ensure we are all on the same page, please review the following resources:

- [Everything you need to know about Semaglutide](#)
- [Pazona MD Partnership Promises](#)

As a reminder, the Pazona MD Weight Loss Program is a monthly membership, similar to joining a gym. We ask for a 3-month commitment because changes in your body don't happen overnight. The medication is not sold per vial but is prescribed to you based on your weekly tolerance.

We will be meeting weekly to ensure you are responding to the medication well. I'll also help you implement healthy self-care habits. Should you need anything in between our visits, don't hesitate to contact me.

Best regards,

The Pazona MD Team

PAZONA MD

## Important Information

Everyone responds differently to various dosages of medication. With our weight loss program, the medication is not sold per vial, but is prescribed to you based on your weekly tolerance. We do not offer medication on a per vial usage basis as it would lead to many people being over-prescribed and either wasting the medicine or it being used sporadically by someone not under our care, which is very dangerous.

When enrolling in the program we ask for a minimum three month commitment.

Changes don't happen overnight. We feel confident that after our three month partnership you'll see fantastic results and want to continue on the medication long-term. We will make exceptions for severe side effects/inability to tolerate medication.

# Promises

## Our Promises To You:

- Multiple ways to access our providers (patient portal, telemedicine or in-person visits).
- We will ensure medication is in stock and available at your time of need.
- Transparent pricing and communication.
- Recommendations based on expert opinions and guidelines.
- Expert management of dosing and side effects.

## You Promise To:

- Notify our office at least 48 hours prior to an appointment regarding the need to reschedule.
- Commit to a minimum three month program partnership.
- Compliance with taking appropriate dosage of medication.
- Contact our office one week prior to needing to pick up medication.
- Contact our office immediately as the first step if you develop any side effects from the medication.
